1. Paragraph 8 of the referenced document indicates that the study effort concerning the ☐ should be continued so that a complete answer can be obtained. The excellent work completed thus far has provided useful information which helps to define the field of view required ☐ It is the desire of this office that further investigation of the problem be initiated in order that unusual conditions may possibly be identified. 25X1

2. The contractor was given an estimate of the field of view required at the time the contract was originally placed. The study by OSI indicated that a modification of these numbers was required and this information has been furnished the contractor.

3. Although it is anticipated that the continuation of this study will not result in a requirement for changes in the field of view of the same magnitude as required by the initial study effort, this study should be continued in a timely manner in order to determine any further necessity for refinement in the field of view that may be required.
